## ***Take and Read – Spiritual Reading: an annotated list*** by Eugene H. Peterson

I always like learning more about the reading lists of Christians and biblical scholars whose work I rely on. I especially find the list helpful when the author comments on each book.

This book is a journey through the reading lists of Eugene Peterson, author of *The Message*. I'm sure that my spiritual journey would take a giant leap forward if I managed to read everything on this list. Of course, it has taken him a lifetime and he started much younger than I! I think you'll enjoy reading his comments on all these books. There are categories here for everyone, including some that seem hardly "spiritual," at least as we tend to use the word. Who'd ever think to find *A Canticle for Liebowitz* and murder mysteries!
